D. Comments on the project conducted

Problems/difficulties encountered when implementing the project

(You may tick more than one box)

- unable to identify the target students (i.e., students receiving CSSA, SFAS full grant);
- difficult to select suitable non-eligible students to fill the discretionary quota;
- target students unwilling to join the programmes;
- the quality of service provided by partner/service provider not satisfactory;
- tutors inexperienced and student management skills unsatisfactory;
- the amount of administrative work leads to apparent increase on teachers' workload;
- complicated to fulfill the requirements for handling funds disbursed by EDB;
- the reporting requirements too complicated and time-consuming;
- Others (Please specify): It is sometimes difficult to verify the family financial status of the students who enrolled in the courses as the school may receive updated information from Working Family and Student Financial Assistance Agency from time to time. As a result, the discretionary quota may exceed.

E. Do you have any feedback from students and their parents? Are they satisfied with the service provided? (optional)

The attendance of the after-school tutorial classes was satisfactory. The classes mainly provided academic support, Chinese and English, for the target students. Most students enjoyed the lessons and thought the tutors had helped them a lot. They said the tutors taught them well. Only one student thought the lessons may be a bit too long and intensive for them.
